## The Discussion Board and Beyond: How Can I Engage Students Online?

Uncovering practical, easy-to-implement ways for turning discussion boards into core teaching tools is just one part of this program!

This 20-Minute Mentor also explores other options for engagement online and outside of the online classroom. Drawing from the Universal Design for Learning, the program reveals options other than discussion boards that ignite online participation. Learn strategic ways for students to take greater initiative in dealing with the coursework and with their fellow students through group or individual activities. The presenter shares examples from her own teaching to demonstrate how these ideas can work in an actual online classroom.

**Upon completion of this program, you'll be able to:**

- Identify challenges of the traditional discussion board
- Assess features in an LMS for engagement potential
- Identify three options for student engagement that are appropriate for almost any class

Available from  
Monday, April 17 –  
Sunday, April 23, 2023
